The Company is organized as a corporation that belongs to the following shareholders: PI Promotora de Infraestructuras, S.A. (35%), SyV Concesiones, S.A. (formerly Itinere Costa Rica, S.A.) (35%), Infraestructura SDC Costa Rica, S.A. (17%), and M&S DI-M&S Desarrollos Internacionales, S.A. (13%). The Company's ultimate shareholders are the USS, OPTrust, and PGGM funds, after the sale of the concessionaire denominated Globalvía by FCC and Bankia in 2016. The Company's objective is to execute and develop the Public Works Concession Agreement of the "San José – Caldera" route, awarded to a third party by the Government of Costa Rica, through public bid No.01-98, promoted by the National Concessions Board of the Ministry of Public Works and Transportation (MOPT, for its name in Spanish). Under the express authorization of the Government of Costa Rica, on June 9, 2006, the former awardee assigned the contract mentioned above to the business consortium formed by the previously mentioned companies (Autopistas del Sol.). The Company is domiciled in Escazú, next to the Autopista Próspero Fernández toll.

On June 9, 2006, the Government of Costa Rica, acting through the National Concession Board (CNC) ("the Granting Authority") signed Addendum No.3 to the Concession agreement with Public Service Concession Agreement for the San José - Caldera Highway Project, through which the concession agreement was modified to leave proof of the new concessionaire: Autopistas del Sol consortium ("the Awardee"), which is formed by the following companies: Promotora de Infraestructuras, S.A., SYV CR Valle del Sol, S.A., Infraestructuras SDC Costa Rica, S.A., and M&S DI-M&S Desarrollos Internacionales, S.A. ("the Concessionaire") in order to carry out the project which is the objective of this agreement.

On January 8, 2008, the Company received the contract initiation order by the National Concessions Board, and the construction stage of the San José - Caldera highway started. c. ***Interest Rate Risk*** -Until May 31, 2017 The loan obtained for financing the works has been acquired at fluctuating interest rates (Libor rate plus a margin). Consequently, the Company is exposed to risk of variations in such interest rate, which effect can be significant in the Project's operations. In order to be protected from this risk, the Company entered into an interest rate swap agreement. This risk was cancelled with the new financing at fixed rates..

d. ***Exchange Rate Risk*** - Most of the transactions conducted by the Company have been denominated in US dollars, and the transactions performed in Costa Rican colones (local currency) during these stages have been minimal. In addition, both the financing structure and the public works concession agreement include that most of the Company's construction and operating income and costs have been convened in this currency. Income from toll collection is received in Costa Rican colones, which is exchanged to US dollar on a daily basis, and in addition, the rate is adjusted on a quarterly basis, taking into account the exchange rate behavior. Consequently, Management considers that the Project is not exposed to exchange rate risk, except for those transactions that take place in local currency, which are not material.
